

Placement Support Team

Role of Placement Support Team:

- Allocation of clinical placements in Derbyshire Community Health Services including Return to Practice and OU students
- Maintain the mentor/educator databases
- Point of contact for clinical areas for any queries or problems with student allocations
- Support mentors/educators in their role
- Supporting the Triennial review process
- Liaise between practice areas and universities including attending key meetings
- Organising & delivering mentor/educator updates and Sign off mentor training
- Monitoring and support for quality standards in practice learning (e.g. NMC, HEEM, HCPC)
- Develop and maintain Student Page on staff intranet
- Host and facilitate DCHS Inter-professional Student Forum, whilst also co-facilitating at Derbyshire Partnership Trusts

Please advise us of:

- Any changes to mentor details in your area (including new mentors/educators, dates of updates)
- Changes in clinical areas that may affect student allocations (including increased capacity for students)
- Any queries or problems you have with student allocations
- Any serious issues or concerns around students' practice or professional standards
- When the universities have been contacted for support with a student

Please Note: Under no circumstances should any placements be arranged, altered or rearranged by direct contact between University Allocations Officers, staff in the placement area, or students.
