

## Using Browsealoud

To access Browsealoud, simply click on the orange headphone icon at the top right hand side of each page and this will open the Browsealoud toolbar.

The screenshot shows the top navigation bar of the Derbyshire Community Health Services website. The navigation menu includes: Home, About Us, Our Services, Work For Us, Contact Us, and Staff Zone. A search box is located on the right side of the navigation bar. Below the navigation bar is a large image of a clock face with the text "CLASSIC" and "Live wait times now available!". A banner below the clock reads "Find out the latest live wait times to be seen at Derby Royal A&E, Derby Urgent Care Centre, Ilkeston MIU and Ripley MIU." On the right side of the page, there is a sidebar with a search box and several menu items: Patient feedback, Become a member, Have your say on local healthcare, and Accessibility. An orange headphone icon is visible in the top right corner of the page.

From here, hover your cursor over the text you want read aloud and Browsealoud will read it to you.

Other features of Browsealoud, such as translation, text magnifier and page simplifier can be accessed by clicking on icons within the toolbar – if you roll your mouse over each icon a description will appear describing what the feature does.

For more details on all the features of the Browsealoud toolbar, you can watch this handy [Browsealoud Features – how to use guide video](#) on YouTube.

**HINT – if you can't see the Browsealoud toolbar on the website, hit CTRL + F5 to refresh your webpage.**

For further information or questions on Browsealoud, please contact the Communications and Engagement team at [dchst.communications@nhs.net](mailto:dchst.communications@nhs.net) or 01246 515224.
